le souhait du sculpteur

by argentskyflower

Summary

"They've also got an arm and a leg over her but at least there's a duvet between them unlike she and Gabriel where never mind how they're cocooned together under the cover; they only seem to have one set of clothing between them."

Two Gabriels. One Nathalie. An Inadvertent Pygmalion fic.

Notes

Before reading this, please read An Inadvertent Pygmalion by fleurjaune as this will make almost no sense otherwise. That, and it's a genuinely good fic to read.

“ *There must have been a noise or something. She’s just about awake but she can tell it’s far too early to be so and she’s warm and snuggly and comfortable and she has absolutely no interest in moving so she refuses to open her eyes.*

She’s just going to stay here and drift off again.

How long that resolution holds she’s not quite sure. It could have been five minutes or it could have been twenty and she could have even fallen asleep in between.

What she does know is that her eyelids are way too heavy to open but she’s also not falling back to proper sleep. That’s not fair. She’s fairly certain today is not a workday and even if it was her alarm clock would wake her so why on earth can’t she just properly drift off.

She tries to shift position to see if that helps but it’s surprisingly difficult.

Oh.

She’s not the only one in this bed.

She’s being held. That’s why she’s so reluctant to leave this for bed for the real waking world, because she’s wanted here.

The warmth in front of her emanates against her face and she lets it fall into the body in front of her. The bare chest in front of her, which is probably something she should think about the implications of but right now that seems like something to put off until much later when she’s actually awake. ”

But the owner of the bare chest suddenly shifts, and as arms enclose her in a tighter hug Nathalie’s sleepy brain is suddenly struck by the realisation that *someone shouldn’t be hugging her in her bed* .

So whose arms were these?

Oh.

Nathalie’s eyes fly open. There could only be one answer to that question.

Gabriel Agreste shifts as she tries to move away, and his arms have captured her in an embrace that would take her some significant moving to dislodge. But the alternative is to wake up in the morning and have to deal with the fact that he cuddled her in his sleep, and Nathalie would very much like to avoid *that* .

So she starts by trying to lift his arms away from her. She needs to be slow, because the last thing she needs is to actually wake him. But his arms are like vices around her, and the heat of his bare chest is distracting to her sleep-addled brain.

Nathalie tries to pry her whole body away, but there’s another mass behind her that she registers as *also* Gabriel, even if it takes her a few moments to remember exactly what he is.

Senti!Gabriel's arms and legs seem to be slung over her covered form too, and if Gabriel is any indication, the duvet is the only thing that keeps him from doing the exact same thing.

So here's Nathalie Sanceour, cocooned under the warm embrace of two men, and now that the thought has occurred to her, the blush on her face is inevitable.

She can't say the thought hadn't occurred to her before. Studying the powers of the Peacock Miraculous and seeing for herself just how uncanny her Ladybug had been compared to the real deal had been an eye-opener. And this whole vacation hinged on Gabriel Agreste being believably out of Paris and away from Hawkmoth, so it was necessary that the senti was all but identical to him.

But she keeps moving anyway, especially since her chest is all but pressed to his and from the way she's squirming it keeps rubbing on the fabric and on his bare torso; sending little sparks of pleasure that threaten to harden her nipples. Now *that* he would definitely notice. Her legs are also entwined with his and she's very much aware that his pyjama top can only cover so much and while he has the pyjama bottom her legs are still bare against his.

It's *distracting* . And she can't deny that being all but smothered by two men whom she knows now to have feelings for her is something that's featured in some of her raunchier dreams.

'Not the time!' Nathalie mentally chides herself and resumes trying to extricate herself from Gabriel's embrace. But when she looks up to check if he's awake from all her squirming—wide awake silver eyes are staring back at her.

"Nathalie," he says quietly, oddly strangled, "please stop moving."

She freezes, but her legs are stuck in an uncomfortable position now so she *has* to move them, and as she lifts it to settle better, her knee brushes against something *hard* between his legs.

Gabriel groans. Loud.

Nathalie feels her face burn.

"I-I'm sorry, let me just—"

She tries to pull away from him, disentangle her legs from his, but his arms are like vices and she can't get enough leverage to push him away even when she raises both hands to his chest. While her intention may have been innocent it quickly ran straight to the gutter as she can now *feel* his every breath through his naked chest.

Gabriel's head dips down to nuzzle against her hair, nosing through the strands where she knows her red streak is. One hand wanders down to the edge of the pyjama top, palm resting just before his fingers meet skin, and she can feel his warmth keenly through the thin fabric.

His legs move and suddenly his hard cock is pressed right against her stomach, so close she can feel it twitch. It's trapped by his boxers and his pyjama pants but it's stretching against

the fabric obscenely in a way that betrays just how *big* he is.

It's getting harder to think with how his hips are moving to rub his cock against her stomach and how his fingers keep dipping just below the hem of the top, teasing the skin of her legs and driving her mad.

Then his hand abruptly moves to cup her mound, fingers pressing just against her clit, and Nathalie *moans* .

Gabriel immediately removes his hand to cup it over her mouth.

"Shh," he murmurs. "We wouldn't want to wake up the other one."

Nathalie is about to nod, frantic to get his fingers back to where she need them to be when—

"Too late, I'm already awake."

Nathalie and Gabriel both freeze.

The duvet is abruptly removed, and Nathalie feels the chill of the night pebble her skin and curls up further into her Gabriel. She can't quite place the emotion flashing over Senti!Gabriel's eyes but he doesn't seem like he's about to break them apart.

Her Gabriel has no such compunctions.

"Stop looking at her," he snarls.

"Where else would I look?" Senti!Gabriel replies, and Nathalie can *feel* the weight of his gaze.

"Not at us."

"Not at *you* , no."

Gabriel hugs her tighter, as if to protect her from *him* , and she appreciates his protectiveness but now that her cheek is pressed against his chest she can all but feel the rage mounting in her Gabriel as Senti!Gabriel refuses to look away.

"Look, let's just all go back to sleep—"

"Not with you two having sex next to me—"

"We weren't having sex y—"

"So what if we are? This is my bed—"

"I think you'll find it's under my name, actually—"

"That's *my* name, you—"

She feels like having two Gabriels fighting over her should be more enjoyable than this. Not that the position she's in isn't enjoyable. But the sniping between the two men is really killing the mood.

Nathalie pushes on Gabriel's chest. "Let me go."

"No."

She scowls. Any other time his possessiveness is endearing but now all it's doing is trapping her in between their argument, and it's still dark out and if they get any louder then Adrien might wake up and ask why his father is arguing with himself.

And she's both sleepy and keyed up and it is far too early to play peacemaker and so she hisses to them both, "Well if we're not having sex and we're not going back to sleep given how you two are going then what are we going to do?"

The two men pause. There's a palpable shift in the air as her Gabriel seemed to communicate with Senti!Gabriel through eye movements and scowls and general eyebrow-raising, and Nathalie is grateful for the sudden silence even if as it drags on she can feel her eyes drifting closed.

"Nathalie," her Gabriel suddenly speaks up, and his hand drifts back to its position near the edge of the pyjama top just as he shifts, and as he pulls her up against him Nathalie is surprised to feel that after all that fuss he's still *hard* .

Then his lips press against hers just as his fingers dig into her thighs, and beyond the rush of blood in her ears Nathalie registers the rustle of clothing being removed even as she moans. This is the opening that he's been waiting for apparently, because as soon as her lips part his tongue rushes in to claim her mouth.

It's nothing like his earlier kiss. Nathalie could feel him exploring her mouth, tangling with her own tongue, tasting the mint of his toothpaste and just a hint of the wine he drank earlier. Her hands come to rest on his shoulder and his chest while he moves his hand back between her legs, and now that they're properly positioned his hard cock rubs against her thigh every time they move.

Then another set of hands land on her waist. Nathalie breaks off from the kiss with a gasp, and when she looks behind her Senti!Gabriel is there, his grey eyes almost black with lust as he stares down at her. Nathalie turns to look back at her Gabriel only to see the exact same expression, apparently unbothered by his senti self's presence.

Both of them are naked, from what she can dimly see. And both of them look like they're about to ravish her.

Nathalie's now fairly certain this was a dream. If it is, she's not about to wake herself up.

Senti!Gabriel's lips descend between her shoulders and his breath tickles her back in a mimicry of his earlier kiss, while her Gabriel showers her face and her cheek with butterfly kisses as his thumb rubs circles around her clit.

“Buttons,” Senti!Gabriel groans as he nuzzles against her neck, and she could feel Gabriel’s smirk against her forehead.

“You do it,” he orders, and his hand switches from rubbing over fabric to grabbing the elastic of her panties and pulling downwards. Nathalie lets her legs fall open to accommodate him, and Senti!Gabriel gently presses on her shoulder to lay her down properly on her back while her Gabriel scoots lower on the bed.

Senti!Gabriel quickly attacks the buttons on her pyjama top with a fervour she’d only seen when his models are taking too long to change into the next item to be shown on the runway, and as her braless chest presents itself Senti!Gabriel immediately latches his lips onto a stiff nipple. Nathalie couldn’t resist arching off the bed at his ministrations, because it’s technically Gabriel and he’s apparently very good at using those lips for other things than kissing or talking.

As her hips lift off the bed her Gabriel takes the opportunity to remove her panties off her legs. His fingers grip her thighs to open her up and he wastes no time in burying his face in between her legs.

“Aaah!” Nathalie moans loud—only to be cut off by a hand cupping her mouth closed. Senti!Gabriel looks at her with a warning despite the amusement in his eyes, and despite the haze of arousal she remembers that Adrien is literally a room away—and she’s not supposed to be in Gabriel’s room. At all.

Or to be moaning out loud like that.

But her Gabriel is busy laving her pussy with his very talented mouth like she’s a feast and he’s a starving man. The beginnings of a five o’clock shadow scrape against the sensitive skin of her inner thighs as his tongue plunges in and out of her wet quim. Nathalie couldn’t help the sounds that come out of her mouth even with Senti!Gabriel’s hand covering it—he too, had gone back to worshipping her breasts and the dual sensations are almost too much for Nathalie to bear.

Her climax is coming on fast, and both Gabriels seemed to sense it because they both slow down—Senti!Gabriel takes his mouth away from her nipple with a final teasing scrape of his teeth and her Gabriel switches from eating her out to lifting her hips away from the bed—

“Hand me that pillow,” her Gabriel says, and Senti!Gabriel gives him his pillow to shove under Nathalie’s lower back, and she whines at the loss of sensation as, impossibly, Senti!Gabriel *moves away* .

“Do they even have lube in here,” Senti!Gabriel grumbles, rifling through the drawers. His words struggle to form meanings in her brain but just as his intentions hit her brain Nathalie feels two of her Gabriel’s fingers plunge into her wet depths and *curl* .

Her head hits the pillow under the head with a scream that she was fast enough to keep trapped under her own hand. A lifetime of sewing and working with tiny things has given Gabriel significant skills in manoeuvring his fingers and he displays that skill as he hunts for that one sweet spot inside her—

The fingers of his other hand prod at her other entrance.

Nathalie's eyes blow wide open. "Wh—"

"Found it." Senti!Gabriel says triumphantly, before squinting at it suspiciously. "This isn't even the honeymoon suite; why do they have this—"

"Just get over here," her Gabriel says, even as his fingertips rub teasingly against the rim of her arse. His other hand continues their assault, driving her mad with how they massage her walls, until finally—his finger brush against that one spot and Nathalie topples over the edge with an incoherent cry.

She's still riding the waves of her orgasm when a Gabriel (she doesn't know who it is now; she'd lost some time in the white high of her climax) remarks, "—like a true peahen."

"I know," a Gabriel replies, and as she's coming down from the heavens, she feels something slightly cold and fluid coat her other entrance, and she squirms.

For all of her past sexual experience she'd only ever taken it up the arse twice before, and while those were fleeting encounters she can't say she disliked the experience. Much more relevant to her current pleasure was the finger that slowly coaxed her open, teasing her with little shocks that made her hips jerk upward. Then Gabriel adds another finger, and Nathalie feels the first strings of discomfort that she valiantly tries to ignore, intent on chasing the little shocks.

"Slow down, you're hurting her," the Gabriel from her left says, "Nathalie, just relax. Focus on—here," and he bends down to nibble at her neck. His teeth working the skin does help in taking Nathalie's mind off what the other Gabriel is doing between her legs, and as he adds a third finger, slowly but patiently, persistently; she can feel the wave cresting again.

"I think she's ready," the Gabriel between her legs says, and his fingers pull out ever so slowly out of her arse with a slick sound that sounds positively filthy to her ears. Nathalie tries to sound her agreement but all that comes out of her mouth is a strangled whine between clenched teeth.

And the bed is moving as two bodies position themselves on either side of her: the Gabriel on her left gently tugs her to face him, and as she does his arm lifts her leg to brace on his own thigh. His cock rubs teasingly along the wetness of her cunt as Gabriel claims her lips in another bruising kiss. The Gabriel behind her presses his cock against the crack of her arse, nestled in between the cheeks.

When he pushes in, her moan is swallowed in his kiss. The Gabriel behind her fondles her breast from behind, teasing the stiff peaks in between fingers and squeezing the ample mounds while trailing butterfly kisses against her back. Gabriel pulls out agonisingly slow, before thrusting back with a vengeance, and as his thick girth splits her cunt open she could feel her come from earlier pooling across their thighs, resulting in a wet, filthy slick sound every time their hips meet.

But all of a sudden he pauses, his cock resting comfortably inside her pulsing walls, and Nathalie tries to grind against him to urge to continue but he just grips her waist with a laugh.

“Patience, my Nathalie,” he murmurs against her cheek, just as another cock presses into her back entrance.

“Relax,” the other Gabriel grunts as he grabs her arse cheeks and slowly fits every inch of his thick member inside her hole, the lube coating his cock slightly cold yet no less erotic for the sensations it sends up her spine. The Gabriel with his cock inside her pussy lifts her leg up higher to his waist, and Nathalie feels so very covered and yet so exposed as two big cocks somehow manage to fit themselves inside her. In her. She feels so…filled.

And so very, very aroused.

Nathalie tries to be quiet but as they move the pleasure racing up and down her spine pulls a loud howl from her throat. As one cock pulls out another fills in the absence until they’re brushing against each other as they move, slowly picking up speed. One Gabriel buries his nose in her hair as her arm reaches up to claw at his back, while the other nibbles at the shell of her ear with constant grunts at every thrust.

As her climax comes hurtling, Nathalie couldn’t honestly tell where one started and the other ended, for they were so close and so intertwined with each other. It’s heaven to be surrounded by this, two pairs of familiar arms holding her close with love and passion, dedicated to bringing her to the stars—

—and from the stars did she fall, her scream being swallowed by another kiss as her vision whites out.

Warmth spills inside her as both Gabriels groan, and the sensation of being filled is enough to launch her from one orgasm into another one. Weaker, yes, but all the more precious for how boneless and satisfied she feels in its aftermath.

As she struggles to regain her breath Nathalie winces at the cock pulling out of her arse, followed closely by the other cock as their combined come spills out of her cunt. That was perhaps the most intense sex she’d ever had in her life, and all it took was a senticreature—

Oh.

Uh oh.

End Notes

Completed as thanks for fleurjaune, for helping me so much with j'ai. When I first read AIP and this scene (the one in all italics) came up, the first thought that went into my head was *my girl 'bout to get dicked down by two Gabriels.* So. for AIP canon purposes this is just Nathalie's dream ;)
