The only sound in the atelier is the sound of the clock ticking. Nathalie's blue eyes reflect the glint of the monitor in front of her as she arranges for the last delivery of the latest batch of designs to the New York office. At the podium, Gabriel methodically closes every application he has on his drawing stand, the strokes of his drawing stylus almost flicking with a flourish as the minutes wind down.

Nathalie closes the browser with a particularly pointed tap of her finger on the mouse. She sets her status from Available to Busy with nary a change in her expression. Gabriel presses the power button below the screen to turn it off, and starts doing hand exercises to ease the strain of using them for hours today.

The clock's minute hand hits the middle of the gilded number '12', marking the start of a new hour as the second hand passes it by, merrily ticking away.

Nathalie stands up from her seat. Gabriel moves away from the podium. Nathalie pushes her office chair back into the desk with a squeak that resonates across the room. Gabriel settles himself on the chair facing away from Emilie's portrait, legs spread apart, fingers clasped together on top of his stomach.

She walks over to him. He tilts his head up to meet her eyes.

"You know what to do," Gabriel says, steel underneath those soft words.

Nathalie falls to her knees. Nimble fingers pluck at the button and the zipper until they give way, revealing the large bulge of his hard cock underneath the boxer briefs. There's already a wet spot where the head is outlined against the stretchy fabric, and she puts a finger on it, feeling it twitch under her touch.

His breathing picks up. She pulls down the elastic of his underwear, making sure to drag the fabric over his cock in a way that makes his breathing skip a beat. It pops out from the restrictive garment enthusiastically, the bulbous head already swollen red from arousal and leaking precum.

She tucks the underwear's elastic just below his balls, keeping it out of the way. He looks down at her imperiously, hands still collapsed together expectantly even as his cock bobs with eagerness in front of her face.

Her hand wraps around the base of his cock, and waits.

"Kiss it."

Her lips pucker as she presses a kiss to the tip, the white precum smearing across her red lips as his musk invades her nose. She withdraws, and silver eyes look down at her with approval.

"Good," he praises. "Now put it in your mouth."

She opens her mouth and takes in the head of his cock. The swollen head slips past her lips and rests on her still tongue, and she takes care not to let her teeth scrape on the skin. The

salty taste of his precum invades her senses, but she's careful to keep breathing through her nose and not through her mouth.

"Suck."

She hollows out her cheeks and breathes in. His stomach jumps and his legs tremble as they fight to stay in place, and she could feel the twitching of his cock in her grasp and inside her mouth, where more precum trickles out, mixing with her saliva.

His fingers finally break from their clasped position to gently grasp the back of her head. She braces herself.

Slowly, he pushes her head down his cock. She lets her tongue run a teasing trail down the length of his shaft as he does, tracing the veins on the underside of it until the tip hits the back of her throat. He takes a deep, calming breath, and his cock prods at her throat in that way that once made her gag, but years of doing this for him has long since disabled her gag reflex.

He tangles his fingers into her hair and slowly pulls her head away from him. She repeats the same tongue action she did when it pushed in until only the tip is left in her mouth; her saliva glistens on the angry veins that run up and down his cock.

He does it again, and again, and *again* . She lets him use her mouth until he's all but removed her prim and neatly tied bun, letting dark strands fall around her face as he bobs her head up and down his cock. Slowly at first, then gaining speed, until her jaw begins to ache at the effort of keeping her mouth open and free as he fucks her mouth.

Just as her knees begin to protest the position she's in, he pulls her off his cock. Saliva drips off from the head in a filthy trail to the floor, intermingling with the steady dribble of precum leaking from his tip.

He's breathing hard now, chest heaving, cock twitching in her warm grasp, and she looks at him with darkened blue eyes.

"Stand up," he orders with a rough voice. She complies, thankful for the respite on her knees.

"Come closer."

She steps into the space between his legs, her thighs brushing against his still erect cock, and he extends his hand to grip his cock, stroking it up and down as his silver eyes focus unerringly on her.

"Strip."

Her fingers make quick work of her trousers, and they drop to the floor around her feet. Her panties follow them down, and she steps out of the pile to kick them behind her. Then she takes off her blazer and tosses it behind as well, leaving her in nothing but her red pullover.

She waits for his next command.

“Closer,” he says again, and she moves until his cock is prodding between her thighs, the precum dribbling out and staining her skin.

His hand detaches from his cock to push a finger through her curls, stroking through her folds to reach her hooded clit.

“Did you touch yourself?”

She keeps her composure despite the sparks generated by his rough fingertip rubbing at her clit in practised circles.

“No, sir.”

He swipes further in, teasing at her entrance, and she resists the urge to spread her legs to let his questing fingers travel to where she aches for his touch.

“Good.”

He withdraws his hand. She suppresses a moan at the loss. He pats his leg, his cock bobbing from the motion.

“Ride me.” he commands.

She turns, spreads her legs and begins to lower herself down—he helps her by fisting his cock and guiding it up to her dripping cunt. She has to brace herself on his legs as his large member pushes into her, stretching her walls apart, filling her and relieving the throbbing ache that had built up since this morning’s activities. She keeps her moans trapped just behind her teeth, hissing silently at his sheer size being taken in at this angle.

He lets her adjust, content to let her find a good position on his lap. Then as she stills, finally comfortable, he jerks his hips up to thrust roughly into her.

“ *Ah!* ”

He pauses. She closes her eyes as her ears burn red with shame.

“What did I say,” he says softly, dangerously, “about making obscene sounds?”

“N-not to.”

“And what did you do?”

“I-I gasped.”

“Yes, you did. That’s an obscene sound. I’m afraid I’m going to have to punish you,” he says, and he sounds so regretful that she almost believes his whole act.

She swallows with a dry throat.

“Place your hands on your mouth. I don’t want to hear another sound from you.”

She acquiesces, and removes her bracing hands from his hips in order to clap them firmly over her mouth. His own hands hold her steady on his lap by gripping her hips, and then he's lifting her slightly off his cock, forcing her weight back onto her bent knees. He's holding her up by the sheer strength of his arms, and their current position feels dangerously close to causing both of them some embarrassing injuries, if not worse.

The thrill of the danger inherent in their current activity makes her want to cross her legs to relieve the ache between them, but she's already broken one rule today and she's not about to push her luck for more.

"You're not allowed to come until I say so." He says, punctuating his sentence with a rough thrust up into her cunt.

She closes her eyes in a bid to enjoy the brief, heavenly sensation of his cock filling her in every blissful way before he pulls out, their combined wetness smearing on the inside of her legs.

"Yes, sir."

She hopes he didn't hear the waver in her voice. His smirk resonates in the space in between them.

"Good."

He thrusts up, brushing against a spot that makes her bite her tongue to keep being silent as stars begin to invade her vision. He lets gravity pull him down and out of her until only the tip is left, and then he's pushing up and inside her; over and over again.

He brushes against that sweet spot with every powerful thrust and her knees tremble with the effort of supporting her weight. She's completely dependent on the strength of his arms to keep her from falling to the floor and his fingers are digging into her hips with enough force to bruise. But it's so *good* ; it all blends together in a whirl of pleasure-pain: his nails catch on her skin to leave crescent-red marks, her joints ache with the bent position they're forced to keep and then—

—he lets her go.

The full weight of her body drops onto his cock and she throws her head back at the *stretch* , biting hard into her palm with how much she'd tried to keep the moan from coming out of her mouth. Her neglected clit throbs as she desperately tries not to come—his cock twitches and spills his release inside her as he groans out loud at his sudden climax.

"Fuck," he wheezes harshly, gasping for breath, "Na—"

They both freeze. She bends her head down, desperately trying to ignore the insistent heat of her pussy and the way his whole body has stiffened under her.

He clears his throat. The atmosphere, far from the lust that had suffused it earlier, had now descended into awkwardness from his near faux pas. He'd nearly broken the rule they're both

established when they went into this affair. *No names* . They'd both agreed on that.

She valiantly ignores the thought of him calling her name out in the throes of passion in favour of the shifting minutely on his already softening cock.

His hand claps on her leg. "Eager, aren't you?" he says with that same indifferent tone, apparently electing to brush past his own mistake. Very well. She'll follow in his lead, like she'd always done before, and tries her best to forget his mistake.

She can't answer him with her hands over her mouth, so she settles for a nod that makes her loose hair sway. She knows he's always loved her hair when it's down.

"You've been so good all day, save for that little hiccup earlier," he praises her; running his hand across her hair, fingers tangling in the dark strands. "I suppose I can let you come now."

' *Please* ,' she begs in her head as his other hand creeps in between her legs. Tailor's fingers expertly part wet curls and flesh to reveal the hardened pearl within, and she clenches her eyes shut as pleasure races up her spine.

He leans forward, his still softening cock shifting inside her, and his breath ghosts across her back as he circles her clit in that way he knows will bring her over the edge quickly.

And he does; he pinches her hardened nub lightly and the pleasure-pain sparks like wildfire until she can do nothing but throw her head back, waves of bliss crashing over her again and again.

Dimly she registers strong hands lifting her up and away from his lap, then being settled on the couch as her limp body still shudders with the force of her climax. Something soft rubs on the inside of her thighs, careful hands wiping away the mix of their climaxes with a tenderness that belays their earlier frenzy.

When she comes back to herself, he's tucking something inside the pocket of his trousers, the placket already buttoned up and straightened once again. There's a slight stain on the dark red fabric given how she'd just been fucked on his lap, but it's negligible compared to the scarlet flush that still remains on his face; a poor attempt at the composure he keeps trying to commit to after every one of their *sessions* .

"Does anything hurt?"

It takes her a few moments to restore her brain back to working condition. A quick assessment of herself reveals nothing too out-of-the-usual for their activities. Her hips ache with how deep his nails have dug in and her knees twinge with the pressure of holding herself up earlier but it's part and parcel of… *this* .

"Nothing hurts, sir," she answers shakily, and is rewarded by his hand stroking softly through her unbound hair.

"You did so well today," he praises.

She nods. He picks up her trousers from the floor and straightens them as much as he can, before handing them over to her. She accepts them and puts them on, ignoring the rough fabric of the stitch lines against her bare cunt. She doesn’t ask where her panties have gone.

He hands her the blazer next, and she puts it on, holding back her dismay at the creases now decorating its surface. Not for the first time, she thinks about folding her clothes properly before they engage in this dalliance. But if she took too long in undressing then the punishment will not be worth the effort. That, and she knows he likes seeing the wrinkles on her clothes for the rest of the day afterwards.

She stands up. He looks down at her.

The clock ticks to herald the start of a new hour.

"Do you require anything else, sir?"

"No, thank you."

Gabriel brushes imaginary dirt off his suit as the red slowly recedes from his face. Nathalie's eyes skate over the telltale bulge in his pocket as straightens her clothes with a slightly trembling hand.

Gabriel turns and walks back to his podium. Nathalie walks back to her desk. He reopens his drawing applications and takes his stylus out from its holder. She changes her status from Busy to Available and reopens her browser.

A chime from her computer resonates in the near-silent room. Nathalie spares a brief glance —it's Adrien. She opens the gate for him. Gabriel doesn't look up at the sound of the large manor doors opening and closing, already focused on his designs.

The clock ticks on.
